

## NIH eRA Project Team Calendar

The NIH eRA project comprises more than 600 people working together to develop an electronic grants application and tracking system, accessible to the extramural community through the NIH eRA Commons and to the intramural community through IMPAC II applications and tools. Collaboration and communication are key in the success of any project. This calendar provides a quick reference for the eRA Project Team for the activities specific to the project. It provides an overview for others of the complexity and numerous aspects of the project.

Send additions to the calendar to [seppalas@od.nih.gov](mailto:seppalas@od.nih.gov).
